Summary on various feedbacks obtained

The feedback of the LIET education process is based on feedback by stake holders which is obtained during the semester/year. Feedback of the teacher on the course and the delivery process enables teaching learning process. This process helps to continuously work for the improvements in the areas of concern. This includes 360° feedback based on different aspects of student progression during his stay with the Institute.

Alumni and Employer feedback indicate the gaps between Industry expectation and curriculum taught to the students. The analysis of feedback is used to fill these gap by taking different measures/practices.
